Death of Mrs. H. D. MacMillan

Word reached Cowley on Friday morning last of the death of Mrs. H. D. MacMillan, wife of the proprietor of the Cowley Hotel. Mrs. MacMillan was obliged some time ago to go to Rochester, owing to internal trouble, and while there underwent an operation, which was thought to be successful. A respite set in, however, and she succumbed to the effects. The news came as a shock to the district, throughout which Mrs. MacMillan was well known and highly respected. Mr. MacMillan is widely known, being connected with the Masonic and Oddfellows' organizations. One daughter survives, Mrs. George H. VanAllen, who resides in Edmonton.

Mr. MacMillan left for Kootenai on receipt of the sad news.

Colonel Peuchen Meets the Macleod Council on Mill Matter

The Macleod News of last week says: "Colonel Peuchen, of Toronto, owner of the McLaren Lumber interests and other large timber lands in the mountains, met Mayor Fawcett and several members of the council on Friday last at the mayor's office."

"A most exhaustive and friendly discussion as to the placing of a dam was held. The mayor very frankly explained the financial position of the town and the difficulties in the way of payment for the construction of the dam. This was quite appreciated by the Colonel, and he expressed his opinion that he did not see how under the present conditions the town could bind itself to any material assistance towards building a dam."

"The site of the dam and auxiliary dams for holding purposes was discussed by the members of the committee at Pate's Hotel, just below the dam of the North Lechbridge Irrigation project, seemed particularly to interest Colonel Peuchen. His engineers will be in Macleod shortly and the Colonel with possibly some of the council will go over the grounds with engineers."

"Mr. Sutherland, the local manager of the Peuchen interests, has been very active in getting full information and was able to explain very much in detail to his employer the circumstances. "Colonel Peuchen seemed very interested in the town finances and expressed the hope that the citizens would be much benefited if the mill was established, explaining that something like a million dollars a year would be expended; and he wished to have his mill working to full limit during the time of high prices for lumber, as he had very extensive timber lands. The Colonel, however, very frankly admitted that prices were too high for ordinary consumption. "The council found the Colonel very pleasant and were well satisfied with the interview."

Why Canadian \$ Is Worth Only 84c

Today a Canadian dollar is worth in New York only 84 cents. The obvious reason for this is that Canada is selling on credit and buying for cash. Had our wheat and other products been sold through their natural channels a dollar would be worth 100 cents in New York today, but the government has interfered and is selling it in Greece, Roumania and other countries on credit. So long as we have governmental interference of this kind we cannot have normal conditions in the country.

A little twelve year old boy in the States picked up a cheque payable to bearer for the sum of \$1,200,000. The boy left same with the issuers and received in reward the handsome sum of two dollars, with advice "that he was an honest lad would probably make his way in the world."

A Comfort has purchased a fruit ranch at Creston, B. C., and leaves with his family for their new home this week.

The girls of the Mission Band wish to thank all those who so generously contributed towards and attended their sale of home-made cooking in the Union church on Saturday last. The proceeds, after deducting expenses amounted to over \$70.

Death of Mrs. Volstenholme

The death occurred on Saturday night, last, at the home of Wilfrid Volstenholme, of Hainsanah, relict of the late Horatio Nelson Volstenholme, at the advanced age of seventy-eight years. Her husband, Mrs. Volstenholme leaves besides her brothers Wilfrid and Fred, a large number of family descendants and hosts of friends to mourn their loss.

Interment took place in the Blairmore cemetery on Tuesday afternoon, following a funeral service conducted in the Union church by the Rev. W. T. Young.

Prospects of a Day Service Train

Rumor is current, which seems to be based on good authority, that the C.P.R. will very soon inaugurate an additional train service on the Crow line. By the proposed schedule trains will run between Medicine Hat, Cardston and the Crow, reaching Blairmore from east about 4:30 p.m., and from west about 1:30, so that it would be possible for parties to go to Lethbridge on the noon train and return in the morning or go west to Fernie in the afternoon and return same night. The new service will likely be put into effect early in May.

Town Council Meets

Very little business was transacted at last Thursday's meeting of the town council. There were present Mayor Ewan, and Councillors McDonald, McLeod, Dutilleul, Giffin, Boese and Montalbeti. The minutes of the previous meeting were approved as read.

The question of disposing of town lots by sale was given consideration, and it was left with the finance committee to recommend steps to take.

The chief of police was granted leave of absence for several weeks, to attend a convention of the G.W.V.A. at Montreal. The mayor was to make appointment of substitute for police work during the chief's absence.

Councillor Montalbeti reported as to the probable cost of putting in concrete sidewalks and several propositions were advanced by different councillors, but none of them appeared to be feasible at the present time. The matter of concrete sidewalks will likely drop.

Coleman Man is President Of Canadian Mining Institute

TORONTO, March 16.—The Canadian Mining Institute at the last session of its convention here went on record as being unanimously in favor of nickel colliages. On the proposition of T. W. Gibson, deputy minister of mines for Ontario, and seconded by A. J. Young, a resolution was adopted, recommending to the government the advisability of nickel colliage and its circulation at a fixed date.

C. R. Macdonald, of the International Company, said Canada produced 80 per cent of the world's nickel. The following officers for the coming year were elected: President, D. E. S. Whiteside, general manager, International Coal & Coke Company, Coleman, Alta. Western vice-presidents: British Columbia, E. E. Campbell, mine superintendent, Granby Smelting Company, Ansoy, B. C.; Manitoba, W. J. Dick, fuel engineer, Coal Sellers, Limited, Winnipeg.

A rip-roaring game of hockey was played last night at Frank between the F. M. Thompson puck chasers and the West Canadian "Scrappers." The result was 5-4 in favor of the Scrappers. A full detailed account of the game will be published next week, providing our sporting editor returns from Malta.

Nothing seems to please a loafer so much as an opportunity to bother a man who is busy.

Canada; A Nation In A League of Nations

Participation in the Great War carried Canada into world politics. Prior to the war many Canadians had got into the habit of referring to Canada as a nation, but when it came down to a definition of our legal and international status it had to be confessed that we were still a colony, a dependency of Great Britain. The Great War has finally changed Canada's position in the world. Great Britain no longer looks upon Canada, Australia and other overseas dominions as colonies or mere dependencies, but as sister nations with Britain herself, the whole united in one partnership of equality under one Crown and forming the British Empire.

Recognition of Canada's changed status is not confined to the Empire itself; it is now officially and legally recognized in an international sense by the admission of Canada as a nation in a world League of Nations, a League wherein Canada has equal standing and equal responsibilities with all the sovereign nations of the world. Canada's right to such a status may be questioned, and recognition delayed, by the United States Senate, but it is accepted and approved by all other nations, and the United States will either have to accept it or remain outside the League of Nations.

Because of this change in the international status of the Canadian Dominion, and the new responsibilities imposed upon Canada, it is not only right but necessary that our people should take an interest in, study, and endeavor to understand international questions, world politics, international finance, and all the many questions which have a vital influence upon the currents of the world's public opinion. No longer can Canadians be content to allow the British foreign office and the British Parliament to settle all international problems for us; we must now study, understand, and take an active part in the settlement of all such problems ourselves.

Undoubtedly one beneficial effect of this larger interest and vision in world affairs will be to broaden the view of our people in the consideration of domestic questions. As time passes we are likely to become less petty and parochial in our home politics as we learn the necessity of compromise, and a policy of give and take, in the settlement of the many knotty international problems created by geographical barriers, and racial and creed divisions. Administering a world-wide empire, the people of the British Isles long ago learned the lesson of tolerance, and appreciation of the other fellow's viewpoint, and, having learned it, it became Britain's greatest asset in its successful colonial administration and world diplomacy. Canadians will learn the necessity of tolerance in dealing with great international problems, and by the application of a greater tolerance to all many of the prejudices which now retard Canadian development will fade away.

In the past Canadians have been too self-centred. Lacking that close intercourse with other nations and peoples, which our new international

status will force upon us, we have failed to appreciate many of the fine qualities of races whom we have brushed aside as "foreigners"; we have failed to learn from them many things which would have added richness and variety and strength to the life of Canada; we have been too intent upon the practical problems of Canada and the reaching of solutions by ourselves without regard to the history of other nations, and have thus frequently made mistakes which could easily and ought to have been avoided by a consideration of the solution of similar problems elsewhere.

The introduction of the larger issues of world politics into the political discussions and life in Canada will not serve to weaken our interest in, or divert our attention from, domestic problems and issues; on the contrary, it should serve to strengthen the determination of our people to approach and settle them in a bigger way than ever before in order that Canada may become more and more united and better fitted to perform its part with honor and credit to itself as a nation in the League of Nations.

Formerly a debtor country to Great Britain, United States and other countries, Canada today has become a creditor nation. Belgium, Rumania, France and other countries are now in Canada's debt. We have a direct interest in their welfare and stability. Canada has established a great mercantile marine, with ships going to ports in all parts of the world, and within a year or two the number of ships flying the Canadian flag will be two or three times greater than today. Canada's international trade and commerce is expanding by leaps and bounds. A new nation is arising, and it is work which is the outgrowth of the war and our new national status and dignity.

If this new consciousness is developed, and the people of Canada lay aside their old sectarian quarrels and bitterness, and set themselves energetically to the task of developing their own natural resources, and increasing production for world consumption, they will quickly find their Dominion forging ahead to that place which destiny intended Canada to occupy, and the hope of which was the inspiration of the fathers of Confederation, and the dream of our earlier pioneers.

GEE, I'M HAPPY My Catarrh All Gone

Suffered Like a Boob for Years—Got Relief in Ten Minutes

Catarrhzone Did Cure

That's the way hundreds of the boys around town are talking since Catarrhzone got into the drug stores. Nothing on earth like Catarrhzone to really cure Catarrh, Colds or Bronchitis. "Catarrhzone" isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhzone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhzone. All dealers sell Catarrhzone, large size which lasts two months, price \$1.00, small size 50c; sample size 25c.

Airplane Comes Down to Business
The airplane has now taken its place in the day's work. A telegraph trouble-hunter in the Panama Canal zone made the flight to a break fifty miles away, completed the repairs, and was back at his starting place in ten minutes less than two hours. The trip would have required three days by the method hitherto employed of horseback travelling through the jungle.

"It's four years since he left me," wailed a doctor with tears in his eyes. "I remember it just as well as yesterday, how he stood in the door holding it open until his feet got into the house."—Newton Kansan.

Better for you than tea or coffee—Instant Postum

Delicious coffee-like flavor. Made instantly in the cup. Costs less than tea or coffee. Sold by all grocers

Settlers' Wives Learn How Creameries Are Run

Short Course Given at Moose Jaw Creates Unusual Interest

Unusual interest is being taken in the short course now being given at Moose Jaw, Saskatchewan, for the wives of the soldier settlers from the outlying districts. On March 1st, 68 of them arrived in this city to participate in the course. They were given a warm welcome by the ladies of the city.

Some of the subjects dealt with in the course are:

1. Butter-making, by P. E. Reed, Dairy Commissioner for Saskatchewan.
2. Practical work on farm butter-making, by W. Harkness, S. S. B. Supervisor for Swift Current.
3. Demonstration of creamery plant in operation, showing sterilization, pasteurization and milk testing, by J. A. Caulder, manager, Moose Jaw Creamery, assisted by Mr. Logan and Mr. Harkness.

Made Her Feel Like A Different Person

WHY MRS. MILES WOOD RECOMMENDS DODD'S KIDNEY PILLS

She had kidney troubles, and her feet swelled, but the states she found the relief she looked for in Dodd's Kidney Pills.

Arden, Ont., March 15.—(Special)—"Dodd's Kidney Pills made me feel like a new person." That is the statement of Mrs. Miles Wood, a well-known and highly respected resident of this place. "I was troubled with my kidneys," Mrs. Wood continues, "and my feet swelled. I tried Dodd's Kidney Pills with the result that the swelling is nearly all gone and I feel better in every way."

To any person who is bothered with kidney trouble or with their feet and legs swelling I would say "use Dodd's Kidney Pills." The women of Canada have come to look on Dodd's Kidney Pills as a standard remedy for their kidney ills. They act directly on the kidneys. They are purely and simply a kidney remedy. By putting the kidneys in proper condition to strain all the impurities, all the seeds of disease, out of the blood they carry good health to every part of the body. Ask your neighbors if Dodd's Kidney Pills do not help all kidney ills.

Price of Seed Wheat

Reduction Made in Interest of Farmers Who Suffered Crop Failure

The Canadian Wheat Board has issued an order reducing the price of wheat, sold locally from elevators in the Prairie Provinces for use as seed, to \$2.45 per bushel, Fort William basis, this price to be effective from midnight, February 21, until further notice. Prior to this order the price of seed wheat was the price to millers (\$2.80), plus one cent, with an increase of one cent every 15 days from December 31, 1919. This reduction was made in response to resolutions passed at the annual conventions of the United Farmers of Alberta and the Saskatchewan Grain Growers' Association, asking in the interest of farmers who have suffered crop failure, that the price of seed be reduced to \$2.40, Fort William basis.

Remove Those Unpleasant Warts

By applying Putnam's Corn and Wart Extractor. It cures corns, warts and bunions permanently, without pain and surely. Every druggist in America recommends and sells Putnam's Extractor; it's the best, 25c per bottle.

Building Activity at Calgary

Many Handsome Business and Public Buildings to be Erected

The program of construction of new business and public buildings which will be commenced at Calgary this year already totals well over \$2,000,000. They include a normal school, and a school of technology, and a new post office, contracts for which are being awarded, and the \$300,000 Allen theatre, the Herald addition costing \$100,000, and a \$50,000 addition to the Yale Hotel.

The new Normal School and Institute of Technology will be situated north of the Bow river, in the north west part of the city, and will cost approximately one million dollars. Plans of the structure show that it will be one of the most imposing educational institutions in Western Canada. The building has been designed by R. P. Blake, provincial architect, and is in the Collegiate Gothic style, laid out in the shape of a capital "T." The new structure will face the city on a site of 110 acres.

Penitentiary Farm's Success

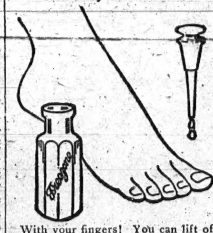

Intensive Farming Has Been Very Profitable

Included in the report of the governor of the Edmonton, Alberta, penitentiary to the superintendent of penitentiaries is an interesting paragraph dealing with the farm operations carried on at the penitentiary as well as its mining operations. Some 70 acres were under cultivation during the past year, and were farmed with gratifying results. From this small acreage, after buying a tractor and stubble plow at a cost of \$1,314, "we show a net profit of \$4,917. From 9 1/4 acres of what we threshed 45 bushels to the acre, and from 11 acres of potatoes we sold 3,500 bushels. Our oats yielded 85 bushels to the acre, and the amount of small vegetables was exceptionally good. Our intensive farming has been very profitable."

Animals found on the eastern side of Sumatra differ entirely from those found on the western side.

Lift off Corns!

Doesn't hurt a bit and Freezons costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezons" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops burning, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Spring Ploughing in British Columbia
Exceptionally favorable weather has been experienced for farming operations throughout February, says a report from Hazelmore, British Columbia, and the result is to be seen in the many newly ploughed stretches of land, in which the virgin soil is newly cleared. There is every indication that seeding will be accomplished much earlier all round than was possible last year in this neighborhood.

"Cold in the Head"

is an acute attack of Nasal Catarrh. Persons who are subject to frequent "cold in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them susceptible to the healing power of Nature. Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE cures internally and acts through the blood on the mucous surfaces of the head.

All Druggists 75c. Testimonials free. Send for free literature. HALL'S CATARRH MEDICINE will not cure. E. J. Cheney & Co., Toledo, Ohio.

Labor Bureau Places 33,399 Persons
During 1919 there had been 40,180 men and 4,668 women applied for positions through the government labor bureaus in Alberta. Of these, jobs were found for 30,018 men and 3,381 women. The cost of operation was \$39,879 or \$92 per applicant and \$1.19 per placement. The cost to the province was \$60.76, the remainder being borne by the Dominion.

Greatest of All Cunnings
The greatest of all cunnings is to seem blind to the snares which we know are laid for us; men are never so easily deceived as while they are endeavoring to deceive others.—Rochefoucauld.

Minard's Liniment Relieves Neuralgia

Creamery Butter Production

Dairying is Advancing Rapidly in Saskatchewan

F. H. Ald, Deputy Minister of Agriculture for Saskatchewan, is authority for the statement that creamery butter production in Saskatchewan has increased during the past year from 30 to 35 per cent, as compared with the year 1918. The increase in 1918 over the year 1917 amounted to 50 per cent.

Saskatchewan is fast coming to the front as a dairy producer, but even more rapid development is looked for in the future. Quality counts, and everything that can be done in the way of emphasizing the need for a higher quality of butter is considered a step in the right direction.

WHEN BABY IS CROSS

Mothers, when your baby is cross—when he cries a great deal and no amount of attention or petting cheers him up—think of the matter. It is not the nature of little ones to be cross and peevish—the well child is happy child. Give him a dose of Baby's Own Tablets, and he will soon be well again. The Tablets are a mild but thorough laxative, which regulate the bowels and stomach; banish constipation and indigestion; break up colds and simple fevers, and relieve the other minor ills of little ones. Concerning them Mrs. Oscar Redard, Ste. Sophie, Que., writes: "Baby's Own Tablets are an excellent remedy for constipation. They relieved my little one when nothing else would, and I can strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Farm Lands Sell for Over \$100 Acre

Farm lands near Morden, Manitoba, sold for over one hundred dollars yesterday when the McQuish farm just east of the town sold for \$105 per acre, the farm of Rove Henderson, adjoining Morden to the north, for \$110 per acre.

OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headache. But do not whip the bowels into activity with harsh cathartics. What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil, or Purgatives.

Twenty-five million boxes of Cascarets are sold every year. They work while you sleep. Cascarets cost so little, too.

Food Jump in Britain

The cost of all principal articles of food in England rose in January to 136 per cent. over the pre-war level, and is 126 per cent. on rent, clothing, light and fuel, according to statistics prepared by the American Chamber of Commerce in London.

Minard's Liniment Cures Burns, Etc.

The first Chinese ever called for jury duty was included in the panel before a New York judge.

When your brain works like a dog with three legs walks—you need BEECHAM'S PILLS

When your brain works like a dog with three legs walks—you need BEECHAM'S PILLS

An active brain must have pure blood, not poisoned with products of indigestion—or liver and kidney laziness.

Largest Sale of Any Medicine in the World. Sold everywhere in Canada. In U.S.A., Dr. Williams' Pink Pills for Pale People.

BABY'S OWN SOAP

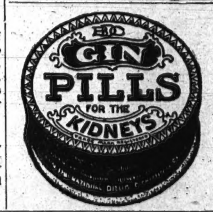

In the interest of your skin, insist on Baby's Own Soap. Cleansing—Healing—Fragrant. (Not for baby—but for you.)

Unfulfilled Prophecy

When the United States entered the war—American magazines forecasted an "air armada" which was to sweep across the Atlantic and literally blacken the stars with airplanes in the zones of France and elsewhere. A house committee at Washington has just reported that the armada consisted of 213 "clumsy and utterly dangerous" machines, and that the rest of the 720 planes used by American aviators were supplied to them by the allies.—Toronto Star.

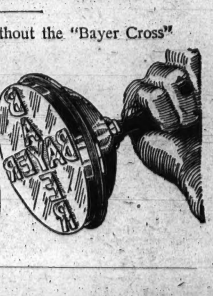

Half the troubles we complain of are troubles because we complain of them.

Mountains in the United States is 1,000 miles.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on tablets peculiarly identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years—made in Germany.

Always buy an unbroken package of "Bayer" Tablets of Aspirin which also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" positively to trade mark (registered in Canada) of Bayer Manufacture of World Headquarters at Delft, Holland. While it is well known that Aspirin means Bayer, to those the public health, the Tablets of Bayer Cross will be stamped with their general trade mark, the "Bayer Cross."

Sickly Women Given Strength Vigor, Spirits

Many of the utes of womanhood are due to kidney weakness. At first the back aches. Then pains grip the hips and lodge right in the small of the back. To stop or bend seems impossible. Headaches are constant. Unhappy existence. No pleasure in life when the body is overladen with poisons that the sick kidneys can't filter out. Bright's disease is the next stage. It can be prevented by using Dr. Hamilton's Pills of Mandrake and Butternut. They cure sick kidneys and cure them permanently. When the kidneys work properly pure blood is formed. This means the nourishment and strength for the whole body. Backaches and dragging pains are forgotten. Irregularities disappear. Vital energy is restored, and happy robust health is once more established.

Dr. Hamilton's Pills for women's ills is the slogan of thousands today. Enormous benefit in many ways flows from their use, and no woman or girl can use medicine that will do their general health more good.

For the sake of your kidneys, for the sake of your liver, for the advancement of your general well-being, you can't improve on Dr. Hamilton's Pills, 25c per box.

THE COW PUNCHER

— BY —
ROBERT J. C. STEAD

Copyrighted, Canada, 1918, By The Museon Book Co., Ltd., Toronto. Printed By Special Arrangement.

(Continued.)

It was dusk when he had burnt out his violence, and, tired and as he turned the machine to him gently back to the forgotten city. Irene, by some fine telepathy, followed vaguely the course of his emotions; had followed them in delicious excitement and fear and hope. She sensed in some subtle feminine way the impulses that had sent him roaring into the distance; she watched his powerful hand on the wheel; his clear, steady eye; the minute accuracy with which he controlled his flying motor. And she prayed—and did not know whether or why she prayed. But a color not all of the dying twilight lit her cheek as she guessed—and she was right—that she had guessed—that he might forget his fine resolves—that his heart might at last out-ride his life. In the deepening darkness her fingers found his arm. The motion of the car marked the time. Trembling, but for a time the pounding of her heart would not allow her speech.

"Dave," she said at length, "I want to tell you that I think you're a man that I—oh! I've been very selfish and proud."

Her fingers had followed his arm to the shoulder, and the car had tilted to a steady, slow, wobble as long as I can, Dave." She raised her eyes full to him, and felt them glowing upon her in the dark. "I have fought as long as I can," she said, and I—I always wanted to—love, you know, and now—I surrender."

Elden lost no time in facing the unpleasant task of an interview with Mrs. Hardy. It was even less pleasant than that expected.

"Irene is of age," said Mrs. Hardy bluntly. "If she will she will. But I must tell you plainly that I will do all I can to dissuade her from marrying a child," she exclaimed, in an outburst of temper, "after all these years of throwing herself away in an institution for a cow puncher."

The thorn of Mrs. Hardy's distress revealed as it was in those last contemptuous words, struck Dave as so ridiculous that he laughed outright. It was the second occasion during which his sense of humor had suffered an inopportune reaction in her presence.

"Yes, laugh at me," she said, bitterly. "Laugh at her mother, an old woman now, alone in the world—the mother that risked her life for the child you are taking with a laugh—'I beg your pardon,' said Dave. "I was not laughing at you, but at the very great aversion in which you hold anyone who has at one time followed the profession of a cow puncher. As you was born practically with a larva in his hand I claim the liberty of being amused at it was in those last contemptuous words, struck Dave as so ridiculous that he laughed outright. It was the second occasion during which his sense of humor had suffered an inopportune reaction in her presence.

"Your Eyes" A Wholesome, Cleansing, Refreshing and Healing Eye—Marine for Red, Swollen, Itchy, Burning, Stinging, and Burning of the Eyes or Eyelids. Use with your confidence. Ask your Druggist for Marine when you buy your eye medicine. Write to Dr. J. P. Kennedy, Chicago, Ill.

the world you do both Irene and me an injustice. And when you call yourself an old woman you do us all an injustice.

"You may spare your compliments," said Mrs. Hardy, tartly. "I have no selfish for them. And as for your defence of cow punchers, I prefer gentlemen. Why Irene should wish to throw herself away when there are men like me like you."

"Conward" interrupted Dave. "If Irene is a cow puncher, a gentle man," she said, in a tone intended to be crushing.

"And the morals of a coyote," Dave returned, holly.

"O-o-o-h," said Mrs. Hardy, in a low, shocked cry. That Elden should speak of Conward with such disdain seemed to her little less than sacrilege. Then, gathering herself together with some dignity, "If you cannot not speak respectfully of Mr. Conward you will please leave the house. I shall not forbid you to see Irene. I know that would be useless. But please do not trouble me with your presence."

When Dave had gone, Mrs. Hardy, very angry with him, and almost quaking with herself owing to the vague conviction that she had had if anything the worse of the interview, rang up Conward's number.

"Oh, Mr. Conward," she said. "You know who I am speaking? Yes. You must come over tonight. I do want to talk with you. I—I've been insulted—in my own house. By that—that Elden. It's all very terrible. I can't tell you over the telephone."

Conward called early in the evening. Irene met him at the door. He greeted her even more cordially than usual, dropping into that soft, confidential note which he had found was no time for conversation. Mrs. Hardy had heard the bell, and bustled into the room. She said not yet recovered from her agitation, and made no effort to conceal it.

"Come into my sitting-room, Mr. Conward. I am so glad you have come. Really, I am so upset. It is such a comfort to have someone you can depend on—someone who will give me advice on all occasions like this. I never thought—"

Mrs. Hardy had been nagging her handkerchief, which she now pressed to her eyes. Conward laid a soothing hand on her shoulder. "There, there," he said. "You must control yourself. Tell me. It will relieve you, perhaps I can help."

"Oh, I'm sure you can," she returned. "It's all over Irene and that—that I will say it—that cow puncher. I think it would have done to this Mr. Conward, you are not a mother, so you can't understand. Ungrateful as I am, I never wanted him to come west. It was that fool trip, in that fool mood, that I had him come."

Conward smiled to himself over her unaccountable violence. Mrs. Hardy must be a little better, he thought, for her to be so correct. He had readily surmised the occasion of her distress. "I understand," he said. "I understand. I never wanted him to come west. It was that fool trip, in that fool mood, that I had him come."

Conward smiled to himself over her unaccountable violence. Mrs. Hardy must be a little better, he thought, for her to be so correct. He had readily surmised the occasion of her distress. "I understand," he said. "I understand. I never wanted him to come west. It was that fool trip, in that fool mood, that I had him come."

HOW TO CURE YOUR SKIN DISEASES

that old sore or skin disease of yours breaks out again? It's because the remedies you have been using do not get to the root of the disease, but remain on the surface. Try ZAM-BUK! It penetrates to the underlying tissues, destroys all germs and cures from the "root" up. Hence ZAM-BUK cures all itching. All dealers. See box.

Zam-Buk

directly personal ambitions. Her ambition were for Irene. From her point of view it seemed to Mrs. Hardy that almost anything would be better than that Irene should marry a man who had sprung from the low estate which Elden not only confessed, but boasted. She had hoped that by bringing Conward into the house, by bringing Irene under the influence of a close family acquaintance with him, that that young lady might be led to see the folly of the road she was choosing. But now her clever purpose had come to naught, and in her vexation she did not hesitate to humble herself before Conward by confessing in words that she had not misunderstood, that she had hoped that he would be the successful suitor for Irene. And Conward's heart leapt at the confession. He was sufficiently schooled in the affairs of the world to appreciate the advantage of open alliance with Mrs. Hardy in the short, sharp battle that lay before him.

(To Be Continued.)

Sun Life Shows Large Gains

49th Annual Report Is Issued, Showing Tremendous Expansion

Several new and interesting records in the insurance business were made by the Sun Life Assurance Co. of Canada during 1919. The 49th annual report of the company has just been published, and shows that the new business actually issued and paid for during the past year was \$36,548,800, an increase of \$34,957,457, or 67.7 per cent, over 1918. The tremendous business of the Sun Life will be reflected when it is stated that the company has retained every year in 1919 exceeded one hundred million dollars. The figure creates a distinct record in the insurance business of the Dominion, as no Canadian company has ever approached this total.

The business in force amounted to \$416,358,462, showing an increase of \$75,548,805. The assets of the company were increased by \$91,089,091, and the surplus to \$105,711,468, while the report shows a net surplus of \$8,037,440 over and above all liabilities and capital stock, which indicates the importance attached by the company to safety and protection. The company paid out to policyholders and their beneficiaries \$12,364,000, bringing the total amount paid out in this connection since organization to \$91,227,532. Another record was made in regard to income with a total of \$25,704,201, or an increase of \$4,053,101 over the previous year.

Owing to the remarkable development in the business of Canada's greatest life assurance corporation, the directors feel that the business in the Dominion is due to enormously expand during the present year.

Wanted if Unarmed

Over the telephone a worried voice addressed the proprietor of a small hardware store. The speaker began: "I come in your place today and bought one of them dollar alarm clocks, and you set it for me to go off at 5 o'clock in the morning. I've been member."

"Yes," said the hardware man, "I remember."

"Well," went on the other, "I've just found out that I don't have to stay up at 5 o'clock in the morning."

"Glad to hear it," said the hardware man, "but what do you want me to do about it?"

"I want you," said the customer, "to tell me how to disarm this clock."

Prospecting For Oil

Kerobert district is experiencing an oil boom says the Regina Leader. Many people have filed claims as oil prospects during the past few days on land in that district. In two hours 20,000 acres had been leased.

It would appear that the announcement of an increase in rental prices has something to do with the present rush, also the oil spirit is in the wind. The territory northwest and west of Kerobert has been sounded for oil before, but the result has been a belief that with deep drilling oil will be produced in that locality.

The bravery of some men is like that of bulldozers; they haven't sense enough to be afraid of anything.

Britain Building Locomotives

One Large Firm Engaged on Order for Foreign Government

There has been a marked revival in locomotive building in Great Britain since the conclusion of the war. One large engineering firm, which recently entered this field is engaged on an order for many thousands of locomotives for a foreign government. In the production of these locomotives all the highest refinements in economical children's coats, leathers, draperies. The various shops are arranged so that the materials and parts flow uninterruptedly through to the finished locomotive, and each step in the process of manufacture and assembly is subjected to close, continuous observation in order to prevent the slackening of one part in the process of evolution delaying the subsequent steps.

Easier For Her to Dye Than to Buy

"Diamond Dyes" Turn Faded, Shabby Apparel Into New

Don't worry about your dress results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, leathers, draperies, coverings—everything.

The Direction Book with each package tells how to "diamond dye" over any color.

To match any material, have dealer show you "Diamond Dye" Color Card.

ECZEMA RASH CUTICURA HEALS

Very Itchy and Burned.
Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she had the loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching."

"This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap and was healed." (Signed) Mrs. H. S. Blenheim Rd., Oak, Ont.

Cuticura Soap, Ointment and Talcum are ideal for all toilet uses. For free sample send Cuticura Coupon, Box 100, Montreal, P. Q.

Under The Bolshevik Regime

British Officers Describe Unequalled Horrors in Northern Siberia

A Party of British officers arriving at Harbin from Omsk and Chita declared that their experiences west of Irkutsk, excelled all other previous horrors, says the London Times. Harbin, Manchuria, correspondent in a communication Feb. 19—Piles of naked and frozen bodies of men, women and children were stacked at every station, the correspondent quotes the officer as saying. "The Czecha took the engines from the hospital trains, leaving the sick to perish from cold and hunger."

"SYRUP OF FIGS"

CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Mothers! You must say "California."

Soldier Settlement Loans

Loans approved by the Soldier Settlement Board now total nearly \$57,000,000 and some 35,432 returned men have passed the necessary tests to qualify them as agricultural settlers. Up to February 14, the number of settlers' loans approved was 15,083, and over 12,000 were established on farms and have got a good start in their agricultural career.

Why Not Teach

The Institute for public service, William H. Allen director, is doing good work in recruiting teachers. Tremendous forces are turning the young people away from the teaching profession. Money alone will not bring them back. They need to be shown that teaching is a fascinating occupation.

We are facing throughout the country a shortage of some two or three hundred thousand teachers. This is nothing less than a calamity, for teaching is the most important business on earth.

For the encouragement of young people who are considering teaching as a career, I set down these points:

1. The teacher's life is a happy one. It abounds in thrills of discovery and achievement which are seldom equaled elsewhere. It is influencing human beings.

2. It is objected that many young women teachers get married. Why not? Is there any better preparation for marriage than teaching school?

3. Teaching opens the doors to advancement in all walks of life. President Wilson began as a teacher, as did ex-President Taft—and both are greater teachers today for that very reason. Governor Cox and ex-Governor Willis of Ohio are ex-teachers. The highest paid business woman was a teacher; so was Jane Addams, Anna Howard Shaw, Ida Tarbell, Honore Wille, Josephine Daskin—dgs. A teacher has just been made manager of one of the country's greatest daily newspapers. The heads of the great foundations of over \$100,000,000 each are ex-teachers.

4. There is money in successful teaching. Cleveland pays its superintendent \$12,000, Cincinnati \$10,000, Dayton \$8,000, Youngstown \$6,000, 12 Ohio counties \$4,000 or more and state universities are bidding against one another up to \$20,000 for teacher presidents.

5. Salary increases of \$200 to \$500 are being widely made for elementary and rural teachers and conditions point toward an early conclusion of the salary argument against teaching.

6. There is no better business in the world to prepare one for life, for culture and for achievement in any direction of activity than teaching.

Why not teach?—Ex.

The extent of Colonel Peuchen's project for Macleod, will be the erection of a mill with a capacity of 175,000 feet per day, a lath mill and a box factory, and a possibility of manufacture of chemicals from the by-products of the mill. The enterprise would mean employment of between three and four hundred men.

The extent of Colonel Peuchen's project for Macleod, will be the erection of a mill with a capacity of 175,000 feet per day, a lath mill and a box factory, and a possibility of manufacture of chemicals from the by-products of the mill. The enterprise would mean employment of between three and four hundred men.

Teachers' Permits

Many people will read with great interest the very satisfactory information which the Honorable George F. Smith gave to the public line of a day regarding the manner in which permits to teachers are regulated in the province. In answering a series of questions Mr. Smith gave the house a very definite outline of policy as set out in the following statement:

Mr. Campbell asked the government the following question, of which he had given notice, and which were answered by the Hon. Mr. Smith:

1. Q. How many teachers are there in the public high schools and collegiate institutions of this province?

A. For the term ending December 31st, 1919:

Total number.....4699

Teachers doing secondary work.....144

Teachers doing public school work.....2955

2. Q. How many are British subjects?

A. 1877

(a) Naturalization?

(b) A. No license is granted to teach in the province of Alberta unless the candidate:

(c) Produces proof of the necessary academic and professional training, and of good moral character;

(d) Has taken the Oath of Allegiance to His Majesty King George, and

(e) If of foreign birth, has taken a prescribed course for teachers in one of our training schools, and has passed one of our tests.

3. Q. Are permits ever granted to non-British subjects?

A. No person is granted a permit in Alberta, unless—

(a) He or she has taken an Oath of Allegiance to his Majesty King George;

(b) He or she has at least high school standing, and is well-equipped to teach all subjects through the medium of the English language;

(c) A board of trustees has petitioned for the permit and produced evidence to prove that they have made earnest efforts to secure a qualified teacher, and have failed.

(d) The department has the recommendation of the Inspector that the permit be granted.

4. Q. If so, how many such permits have been granted during:

(1) 1914.....663

(2) 1915.....309

(3) 1916.....

(4) 1917.....

(5) 1918.....

(6) 1919.....

4. A. The information in answer to question 3 will indicate that it would be difficult to answer question 4 in the present form, as the figures given do not show the number of teachers holding permits but the total number of permits issued for the entire year, some of them for one or two months and none longer than six months.

Total number granted in each year:

(1) 1914.....663

(2) 1915.....309

(5) 1918.....930
(6) 1919.....417

Not more than 250 permits were in use at any one time in 1919 and at the present moment only 72 are in use in the province. The maximum number was reached in the month of June when University students were available. The great majority of permits were issued to University students and graduates and to High School students with Grade XI and XII standing.

Miss Sheed, of Pincher Creek, visited her sister here yesterday.

Music By Henry Ford

For Sale—One Ford car with piston rings, two rear wheels, one front spring; has no fender, seat or plank; burns lots of gas; hard to crank; carburetor busted half way through; engine misses, hits on two; three years old, absorber and everything; radiator busted, sure does leak, differential dry—you can hear it squeak; ten spokes missing; front all bent; tires blown out—not worth a cent; got lots of speed, will run like the deuce; burns either gas or tobacco juice; tires all been run on the rim; a damn good car for the shape it's in.—O'N.

Franchise For British Citizens Over Twenty-one

Ottawa.—The new franchise bill forecasted in the speech from the throne and expected to be one of the most contentious pieces of legislation to be thrown into the arena this season, was introduced into the commons by Hon. Mr. Guthrie.

In introducing the bill, Mr. Guthrie explained that the only requirements would be those of British citizenship, residence in Canada for one year, and in that particular constituency for two months and the attaining of the age of twenty-one years. These requirements would be applicable in the case of male and female voters alike.

The principle adopted in the preparation of voters' lists was that existing provincial lists in any province where authorized bylaw for use in provincial elections should be utilized in the case of Dominion elections, provided the lists were not more than twelve months old, or more than twelve months had elapsed between their compilation and the issue of writs for a Dominion election; when more than one year old, they would form the basis for Dominion lists. Power is given in the bill for bringing the provincial lists up to date.

The press of registration in rural municipalities and rural districts is to be followed where no provincial lists are in existence. In such cases, the county and district judges shall act as revising judges and registrars are to be appointed in rural districts where no lists are available. Abolition of the office of the clerk of the crown in chancery is provided for in the new bill, and the substitution of a chief electoral officer, whose duties will be similar to those of the general returning officer in the last general election.

Turks Besiege Armenian Villages

Troops Reported to Have Attacked
Several Places in
Silicia

LONDON.—Zeitung Humit and various other Armenian villages in Silicia have been besieged by Turkish troops for the last ten days, according to dispatches received from diplomatic sources.

The dispatch says the Armenians thus far have been able to defend themselves.

Zeitung is in the vilayet of Aleppo, 20 miles northwest of Marash, where the recent Armenian massacres are reported to have occurred.

Further Attacks

Paris.—Members of the allied military commission at Breslau were attacked by a mob, but were saved from injury by intervention of the police. The allied representatives were hooded and some stones were thrown by the crowd before it could be dispersed.

Admiral Jellicoe's Advice Is Given On Nava Question

Ottawa.—If Canada decides to co-operate in the general naval needs of the empire it may be convenient to possess a basis on which to build up her fleet. The basis suggested under these conditions is a fleet unit, which it is considered that war experience has shown, should comprise in the case of Canada:

One battle cruiser, two light cruisers, six destroyers, four submarines, and two fleet mine sweepers.

The naval force suggested as adequate, purely for the protection of Canada's ports, comprised:

Three light cruisers, one flotilla leader, twelve torpedo craft, eight submarines, with one parent ship.

The above excerpts from the report of Viscount Jellicoe, admiral of the fleet, on his naval mission to Canada, which was tabled in the Commons by Hon. C. C. Ballantyne, Minister of Naval Service, indicate what this eminent authority on naval affairs considers are Canada's naval requirements if she is to play her part in empire affairs, and also if she is to protect her own shores. The report, which is not a lengthy one, after mentioning the subjects on which advice was requested by the Govern-

Curzon's Remarks Surprise U.S. Officials

Declare State Department Has Not
Been Informed of Decision
of Council

Washington.—Surprise was expressed at the state department at the statement of Earl Curzon plucking on the United States the blame for the delay in settling the Turkish question.

"The state department has never been informed of the decision of the supreme council at London, and its opinion has not been asked," said one official.

Members of the American peace delegation at Paris were asked concerning the Turkish settlement last year, but refused to discuss the matter at that time.

France has sent a copy of the Turkish settlement to Ambassador Jusserand for presentation to the American Representatives, but it is understood that it has not been received at the state department. It was learned, however, that a statement outlining the "United States" position had been prepared and would be given to the allied governments as soon as the department had been informed officially of the terms of settlement.

The Turkish Problem

Earl Curzon Blames the United
States for Delay

LONDON.—Blame for the troubles that are being experienced in settling the Turkish problem were laid at the door of the United States by Earl Curzon, the Foreign Secretary, in explaining the peace conference negotiations to the House of Lords.

"The difficulty in framing the treaty is largely due to delay, and America is responsible for the delay," Lord Curzon said.

The Foreign Secretary added that the peace conference hoped that when the new states were set up in Asia Minor, however, that the United States would help materially in assisting the new Armenia.

Reorganization of Canadian Militia

Ottawa.—Perpetuation of the overseas battalions, which Canada contributed to the forces in the field during the war, is provided for in the reorganization of the militia of the Canadian Militia, according to a statement issued from militia headquarters. The statement precedes an announcement of reorganization in three of the military districts of Canada: No. 3 district, with Kingston as its headquarters, No. 10, with headquarters at Winnipeg, and No. 11, with headquarters at Vancouver.

In the days of King Alfred, England reckoned the hours by the length of time taken to burn a wax candle of certain length.

Capitalists Multiplied Their Fortunes

While Working Man Gave His Mite
to the State

LONDON.—There are some interesting contrasts presenting economic conditions available here. Lord Colwyn, chairman of the income tax commission, gave the Manchester chamber of commerce three instances of inflated war fortunes. One man who was worth one million in 1914 had now multiplied it six times. Another man who had three million had multiplied it five or six times. Some aliens who came here during the war had capital of about \$10,000. They got hold of things the government wanted, and their capital was now half a million pounds. Sir William Pearce, chairman of the committee on taxation of war wealth, told another gathering of a working man who presented the state with his entire war wages savings, amounting to 90 pounds, in recognition of the sacrifices of his fellow countrymen.

Cost of New Parliament Building

Returns Tabled in House Show
Considerable Sum Already
Expended

Ottawa.—The new parliament buildings cost \$6,954,116 to February 28 last, according to a return tabled in the house. The contractors are to receive eight per cent. on the total cost of the building, dating from February 3, 1916, up to the amount of \$4,000,000, and seven per cent. on the cost in excess up to \$1,000,000, it being understood and agreed that they are not to receive anything in excess of the cost of \$5,000,000.

Architects receive five per cent. on the total cost of the work of reconstructing the parliament buildings, this commission to apply to the amount not exceeding \$5,000,000.

More Outrages in Ireland

Several Policemen Have Been At-
tacked, and One Was Shot
and Killed

DUBLIN.—A number of additional outrages are reported to have taken place in various parts of Ireland. Police Sergeant Macer was shot and killed and Constable Doyle was wounded at Rathkeale, 17 miles southwest of Limerick.

In the Cork district, Inspector McDonough was dangerously wounded in the head by a bullet from a revolver while exchanging shots with crowds which attacked him and another officer. One civilian was badly wounded during the fighting.

At Limerick, Constable Murphy was ambushed and shot and dangerously wounded.

At Kiltgannagh, County West Meath, one hundred armed men raided Durock Castle, a private residence, for arms. The family was absent and only two servants were in the castle. The raiders gained entrance to the building by smashing the big door with sledge hammers.

Egyptians Favor Freedom

Protest Against Suspension of the
Assembly and Denounce the
British Protectorate

LONDON.—Fifty-two members of the Egyptian legislative assembly met at the house of Said Zagloul Pasha, who headed the Egyptian mission to the peace conference, and adopted a resolution proclaiming the independence of Egypt and the Sudan, according to dispatches from Cairo.

A resolution also protested against the suspension of the assembly, and denounced the British protectorate.

Cost of Completion of Manitoba House

Winnipeg.—It will cost \$8,075,418 to complete the parliament buildings in Winnipeg, according to figures given by the legislature of Manitoba by Hon. H. A. Grierson, minister of public works. The return sets out that the board of appraisal awarded \$1,207,351 against Thomas Kelly and Sons, the original contractors.

Hope to Beat R-34

New York.—Word comes from Philadelphia that the United States navy is to build the biggest and fastest destroyer in the world. This ship it is said, is to surpass in size and power the R-34, the British dirigible which flew from England to New York and back last summer.

A mouse trap patented by a Mississippi inventor consists of a board to be clamped to a table in such a way that the weight of a rodent lifts it and drops the animal into water, then swings back into place.

W. N. U. 1307

Drury Government to Enforce Prohibition

Premier Assures Temperance Party
That Act Will Be Made
Effective

Toronto.—It is our sincere desire to make the Ontario Temperance Act effective, and to enforce it in such a way that there will be no reaction, for we must not jeopardize the permanent peace of temperance in the province. We are as anxious as you to make the act effective, and we will move to that end as swiftly as possible, but with due deliberation.

Such was the assurance given by Premier Drury to a deputation of some 250 delegates from the Dominion alliance convention.

The Ontario branch of the Alliance in convention unanimously decided that legal difficulties must be removed before it will ask for a provincial plebiscite.

Red Flags at Pit Shafts

Strike at Mahrisch Ostrau Coal Fields
Becomes Communist Demon-
stration

VIENNA.—The strike which broke out recently in the Mahrisch Ostrau coalfield in the Teschen district, in dispute between Czechoslovakia and Poland, is spreading rapidly, and the movement is reported to be taking on the character of a Communist or Spartacist demonstration.

Red flags are flying at the pit shafts, and the land and land grannies have been used in conflict occurring between Polish and Czech workers. A total of 26,000 men have struck.

The strike was begun as a protest against the action of the plebiscite commission in replacing workmen members of the local committee by bourgeois.

Reds Active in Canada

Secret Service Police Are Investi-
gating Clues of Activities
Now in Hand

Ottawa.—The Journal publishes a report to the effect that the Dominion secret service police are investigating "Red" activities, evidences of which have been found in Ottawa. It is alleged that the suspicion of the authorities was first aroused by the visit of a student to the city of Dr. George Bousfield, a prominent Anglican clergyman of this city. The report is that the stranger visited the rector to secure his co-operation in a scheme which had as its object the removal of a prominent Canadian.

The student was in the city at the time the stranger refused to wait until further information could be secured. Any information with regard to the other sides on which the Dominion authorities are working have been kept secret, although it is known that there has been some activity regarding the circulation of incendiary literature.

Von Hindenburg Again

Germany's Chief Military Training
School Is Closed

Berlin.—The chief training school for cadets at Grossschierfeld, Prussia, through which most of the officers of the German army passed, was closed, in accordance with the terms of the peace treaty.

There was an imposing military demonstration, attended by a number of officers in gala uniform, including Gen. Ludendorff.

Field Marshal Von Hindenburg telegraphed to the cadets that the services they had rendered the country would never be forgotten.

Wonders of Wireless

New Receiving Device Enabled Peo-
ple in Streets to Hear Dis-
cussion in Airplane

New York.—Conversation by wireless telephone between passengers in a navy biplane and a motor truck stationed at Broadway and 42nd street, during an exhibition over the city, was heard by persons standing around the truck at a distance of ten to fifteen feet. Hearing the voices from the occupants of the car attached to the gas-bag was possible, it was explained, through a recently devised receiving apparatus.

War Expenditure Still High

Ottawa.—War expenditures borne by Canada during January last totalled \$43,000,000, of which \$15,305,004 was spent in demobilization, it was shown before the house. The total increase of debt for the month was \$62,015,109.

Prince Commander of R.C.M.P.

LONDON.—The Prince of Wales is understood to have accepted a position as honorary commandant of the Canadian Mounted Police.

Canada Takes No Second Place In League of Nations

Allies Demand Application of Penalty

Send Firmly Worded Note to Ger-
many Regarding Outrages
on Officers

Paris.—The conference of ambassadors has decided to send the German government a very firmly worded note demanding immediate application of the penalties pronounced for the outrages suffered by officers of the inter-allied commission to the Baltic states during the German evacuation of this region, which has hitherto been delayed.

At the demand of the British delegation, the conference has decided to demand again that the government at Belgrade order the evacuation of Radkersburg, 37 miles southeast of Graz, which is still occupied by the Jugo-Slavs, contrary to the decisions of the conference.

The conference has sent precise instructions to the commission of control in Germany that the German government has contested their right to visit fortresses which are not to be destroyed. The control commissions were meant to have the right to visit all German fortified places.

Wanted to Keep Fleet Intact

Sims Told That Navy Was to Be
Kept Whole for Future
Requirement

Washington.—Indications that the United States navy department withheld sending all available American naval craft to European waters early in the war because of a desire to keep the main body of that nation's sea strength intact for possible eventualities were contained in Admiral Sims' testimony before the senate committee investigating the naval conduct of the war.

He read a cablegram from the navy department dated July 10, 1917, containing the outline of the department's policy, and declaring that "while a successful termination of the present war must always be the first allied aim and will probably result in diminished tension throughout the world, the future position of the United States must in no way be jeopardized by any disintegration of our main fighting fleet."

The same cablegram, Admiral Sims said, contained this statement: "The navy department announces its general plan of action the following: Its willingness to send its minor fighting forces in any number not incompatible with home needs to another field of action deemed advisable by the allied admiralty council; its unwillingness as a matter of policy to separate any division from the main fleet for service abroad, although it is willing to send the entire battleship fleet abroad to act as a reserve but co-operating unit when the emergency is deemed sufficient to warrant it."

Prince of Wales' Australian Tour
Portsmouth.—The Prince of Wales starts on his trip to Australia this week.

Sims Interprets Meaning of the British Message

Assault on French Commission

Eight Men Drove Into Town Near
Potsdam and Were Attacked
By Inhabitants

Berlin.—Eight men said to be members of a French aviation commission, who drove into Wernitz, near Potsdam, in a motor car from Berlin, were attacked by the inhabitants, who accused the men of poaching and summoned them to surrender. Four of the men obeyed, but the others tried to escape, one of them being wounded and later dying while being taken to a doctor. Two of the others later surrendered, and the fourth man escaped. The report on the incident has been transmitted to the French charge d'affaires here by an allied officer.

Ottawa.—Canada is among the "first class members of the League of Nations," according to a statement by Mr. Rowell in the House of Commons. In conformity with Article 6 of the Peace Treaty with Germany, Canada's contribution towards the league is fixed on the basis of the apportionment of the expenses of the international bureau of the universal postal union, but the actual amount which Canada may be called upon to contribute must necessarily depend upon the number and classification of these states which become members of the League of Nations. Canada's contribution for the fiscal year ending March 31, 1920, was fixed at \$16,254, which at the current rate of exchange on February 13, the date on which the draft was sent to London, amounted to \$64,043.15.

Land Set Aside for Settlers

Annual Report of Department of the
Interior Tabled in House
of Commons

Ottawa.—Enough agricultural land for settlers likely to come to Canada for some years to come is now available, according to the annual report of the department of the interior, tabled in the House of Commons.

Particularly in Northern Alberta have the government surveyors been active. The amount of land near to the railways is, however, fast disappearing.

Returned soldiers have been well provided for in the matter of accessible land, large tracts being reserved for their use. There has been considerable activity by bona fide settlers outside these reserved areas. The government, it is stated, is planning to continue irrigation and drainage work on an extensive scale.

Particular attention is also to be paid by the department in the coming year to the development of water power.

Revenue collected from occupiers of land during the year.

Cost of Prince's Tour

His Royal Highness Paid Large Part
of Expenses Out of Own
Pocket

Montreal.—The Montreal Star has the following special cable from London:

The expense account of the Prince of Wales for his recent visit to the United States and Canada, just published, shows the tour cost only \$35,000. The treasury had allowed \$125,000 for the journey. The statement disclosed that the Prince paid no hotel bills for himself, but had to meet the cost of accommodation for a dozen officers and other members of his suite. He also paid for all the wines consumed by his suite. Tips and gifts, ranging from walking sticks to jeweled bracelets, amounted to \$10,000.

No Further Loans from U.S.
Washington.—The allied governments will receive no further loans from the United States government, Secretary Houston has announced.

normal healthy condition and as a result her nervousness disappeared.

Of Local and General Interest

WANTED—For Alberta, a Star Equor Law.

WANTED—Girl for general housework. Apply to The Enterprise.

A Comfort and family left here for Creston on Wednesday morning.

Miss A. Picard is spending several weeks with friends in Medicine Hat.

Miss Lewis and Halstead, of Macleod, spent Sunday with Mr. and Mrs. Milne.

Gavin E. Robertson, father of Senator Robertson, died Sunday at Fenwick, Ontario.

Capt. Allen, formerly of the Merchant bank at Macleod but now of Calgary, was in town this week.

A number of local Odd-fellows attended the regular meeting of Coleman Lodge on Monday night last.

A meeting of the school board was held in the office of the new secretary treasurer on Friday night last.

The funeral of the late Mrs. Susannah Wolstenholme took place on Tuesday afternoon and was largely attended.

The tenth annual convention of the Alberta Educational Association will be held in Calgary on April 6th, 7th, and 8th, in Central Methodist church.

Mr. A. Z. Jessup, owner of the Nanton News, has kindly consented to help us out for a few months, and arrived in Blairmore on Tuesday morning last.

Miss Jane Ayonson, stenographer in the office of L. H. Paterson, underwent a successful operation for appendicitis at the local hospital on Monday.

H. C. Dillingham has resigned his position on the staff of the Enterprise, and left with his family early in the week for the Three Hills district, where they will locate on a farm.

Mrs. C. Easton, of Coleman, wishes to announce her Spring Millinery Opening, Monday, March 22nd, 1920, with the largest assortment of ladies' and children's hats ever shown the people of the Crow's Nest Pass.

Prohibition officials at Chicago have limited booze for medicinal purposes to 32 ounces a day. Moonshine whiskey, costing about 18 cents a quart to make, is being sold in Chicago on prescription for \$4 a quart.

A chemist who appeared before the Brentwood Prohibiting Tribunal in England for charging a customer 18 cents for half a pint of methylated spirits produced invoices showing that the cost to him was \$2.41 a gallon. He added: "Then there is the loss by evaporation, and I have to sell sixteen half pints, say 'Good morning sixteen times, sick sixteen labels on sixteen bottles, and say 'Good day sixteen times.'" The case was dismissed.

Fifteen members of the Alberta Legislature voted in favor of the abolition of the Canadian Senate. The resolution was defeated by a vote of 31 to 12, with the three additional who were unable to vote formally expressing themselves in the affirmative. Most of the members who expressed themselves favored the motion in principle but were convinced that the Alberta Legislature was not the body to inaugurate such legislation. Mr. W. M. Davidson introduced the legislation and contended that, as the Senate was constituted to protect the provinces, it was up to the provinces to express their dissatisfaction with it, if it was not meeting the purpose for which it was constituted.

J. Joseph, a star of Montreal is offering from a reported wrist.

Italy has a law prohibiting the printing of newspapers on Sunday.

Blairmore's export warehouse now contains two carloads of "Big" exterminator.

Inspector McDonald, of Macleod, and Supt. Stewes, of Lethbridge, visited local detachments of the R. C. M. P. last week end.

Miss Marguerite Hill is something to stare for these fond of young and fresh-scented singers. Tuesday, March 23rd, at the opera house.

What is all this excitement for Tuesday next? The school is going to give a big time at the opera house with Leslie Grossmith concert and dance. You cannot miss this.

Know and believe that humanity is advancing and that as sure as God lives the future will be greater and better than the present or the past.—Charles A. Dana.

The vaudeville show at the local theatre on Friday night last was very much of the sacker variety. It's what we expected, when their advertising patronage went to Calgary.

Among the undesirables deported from Blairmore last week were six stoop-piggy, seven professional tin horn gamblers, three American coins and a Canadian one-cent piece.

The Alberta government has purchased the Red Deer telephone system, formerly the property of the Western General Electric Company. The purchase price was \$85,000.

Mrs. C. Easton, of Coleman, wishes to announce her Spring Millinery Opening on Monday, March 22nd, 1920, with the largest assortment of ladies' and children's hats ever shown the people of the Crow's Nest Pass.

If the country editor were to snap at the old inducements held out he would soon be a millionaire. He ran a paper according to the popular opinion he would soon be in the poor house. If he published all the items that were sent to him he would be in jail half the time and in the hospital the other half.

—EX.

A total of \$5,159,075 was realized at public auction for the Henry Astor estate in New York, which many years ago was part of the Eden farm, but now is dotted with theatres, private dwellings, factories and tenement houses. The chief transaction was the sale of land on which the Astor, Ripon and Morosco theatres stand, to Robert E. Dowling for \$1,130,000.

A party of gentlemen at the hotel were telling stories one night last week of famous shots and how many gobbers, prairie chickens, ducks and other animals had been killed at a single discharge. After listening to what seemed a wilful exaggeration by different narrators, Mike Roscoe volunteered his experience of his use of the fatal double-barrelled gun as follows: "I went north of Lundbreck one day last September with Lewis Smithy and Bartlett to try my luck with ducks and chickens.

The only game discovered was an immense flock of crows. I should say there were 10,000 in the flock. Slowly I crawled up to them, and when not more than four rods away the crows rose in a solid mass. I fired both barrels, and how many do you think I killed?" Different guesses were made by the party, ranging from twenty to one hundred. "Not one," said Mike, "but I went out with Bartlett to look for the results and picked up four bushels of legs. I had shot a little under."

France began daylight saving this year on March 15th.

Poverty may not be a disgrace but it is a terrible handicap these days.

There is only one creature on earth that is as vain as a woman—and that is a man.

Five hundred and fifty seven schools are closed in the province of Alberta for want of teachers.

Some men would rather go without drink than have to serve three years' before being "admitted to the bar."

Colonel Pouchen spent several days in Blairmore last week, looking over his timber and milling interests.

The Granum Herald has died the death of the just. Of course, we infer that no one but the poor printer is just.

On the Canadian side of Niagara Falls, 400,000 H. P. is developed of which 125,000 H. P. is exported to the United States.

It is estimated that Canada has potential water power of 18,308,000 H. P., of which a total of 1,825,200 H. P. has been developed.

The man who tries to reform others is an inspired missionary. The man who tries to reform you is a hypocritical humbug.

While mother sat darning a stocking, And daddy was smoking and reeking, The grocer's bill came, And concerning the same Dad made a remark that was shocking.

The other day a man was fined for being "lit up." Next day an auto owner was judged for "not being lit up." Where do we go from here?

The former German steamer Maccasin, recently returned from a trip to South Africa, sank at her dock in Brooklyn from mysterious cause.

J. M. Carter left on Tuesday night for Montreal, where he will attend as district representative at the big Great War Veterans' convention.

Mike says the only man who ever found it didn't pay to advertise was the Kaiser. Of course the remark doesn't count for much, coming from Mike.

The ex German liner Prinz Wilhelm has been allocated to the Canadian Pacific Ocean Service, while the Cunard line has the former Kaiserin Auguste Victoria.

One hundred and thirty six miners have been entombed in a bursting mine at Pachuca, near Mexico City, in the State of Hidalgo. Three hundred and forty men made their escape.

Mrs. C. Easton, of Coleman, wishes to announce her Spring Millinery Opening, Monday, March 22nd, 1920, with the largest assortment of ladies' and children's hats ever shown the people of the Crow's Nest Pass.

Eighteen thousand schools were reported closed in the United States on February the 15th, on account of shortage of teachers, while over forty thousand schools were being conducted by teachers' characterizations as "below standard, but taken on temporarily in the emergency."

During the first two months of 1920, 216 package libraries for debaters have been sent out by the Department of Extension, University of Alberta. The question of Protection vs. Free Trade was asked for 15 times; Oriental Immigration 12 times; and Tractor vs. Horse, 12 times. The next subject in interest was Municipal Hospitals, which was asked for seven times. At times the resources of the Department have been taxed to keep pace with the demand for material on live questions.

A Clean-Up is Necessary

That a clean-up is necessary is decided by any respectable person who undertakes to take a peep-in at some of the horrible "dives" that are operating in the town of Blairmore. Complain have come to us and comment is current on the fact that juveniles are being entertained in gambling joints and illicit drink parlors in the Town of Blairmore at all hours of the day or night. The limit was reached a few nights ago, when a citizen undertook to enter one of these famous joints to satisfy his own curiosity and be in a position to speak denouncingly of the business carried on therein. On making an alarm at the main entrance, the lights in the place immediately dimmed and all was quiet. This in itself should justify the authorities, whoever they may be, in closing up such places of business.

"Draw Me Nearer"

The damp weather last week gave the West Canadian whistler a sore throat. After hacking and coughing a while now it is about ten minutes after 6, 7, 12, 12 30, 4, 4 30 or 6 before its throat is clear. Doctors claim that the power plant about a quarter of a mile too far away from the bootlegger's emporium.

The local town council meets on Thursday night next.

The body of the late Mrs. H. D. MacMillan has been taken to Edmonton where interment will take place.

A boiler weighing many tons has just been moved from Lill to Blairmore by contractor, Pozzie for the West Canadian Collieries.

Look! When you see a poor forlorn wife-seeker interesting himself in the wares of a furniture store, don't be too hasty in arriving at a conclusion.

Agents of the Price-Luxes property in the office of the Davenport Coal Company at Burnis, but now in the partnership of Doukin & Stevens Co., construction and mining engineers, at Edmonton, was in the Pass this week. Mr. Stevens was distinction a few years ago as the discoverer of the return of the pre-historic "gazook."

The road which the average local paper must travel is by no means the smoothest, and the hardships it has to contend with are of a nature which the public in general does not seem to understand, if they did they would not be so apt to forget their obligations to the one most needed factor in their community. It is therefore the duty of each individual to do his bit in supporting the local paper and to see that it is given fair play in its fight for existence.

HIGH-CLASS Dressmaking and Ladies' Tailoring

Over Southern Mountains

"Is a far cry from the sagbrush of Arizona and the mountain trails of California to the prairies of Western Canada and the town and country roads of all the other provinces between British Columbia and Prince Edward Island. By the manufacturers is that its Triple Springs—an entirely new invention—give it all the comfort of a long wheeled car while retaining the economical and other advantages of a car of light weight. The Overland 4 is now being sold in every province in Canada. Dealers throughout this district are selling before the factory at Toronto sold a single car. Since the Canadian factory reached a basis of quantity production, hundreds of the same car have been subjected to rigorous tests on the roughest Canadian roads—with the same result. The car has shown its strength, and has proved a sensation from the standpoint of all the other provinces between British Columbia and Prince Edward Island. By the manufacturers is that its Triple Springs—an entirely new invention—give it all the comfort of a long wheeled car while retaining the economical and other advantages of a car of light weight. The Overland 4 is now being sold in every province in Canada. Dealers throughout this district are selling before the factory at Toronto sold a single car. Since the Canadian factory reached a basis of quantity production, hundreds of the same car have been subjected to rigorous tests on the roughest Canadian roads—with the same result. The car has shown its strength, and has proved a sensation from the standpoint of all the other provinces between British Columbia and Prince Edward Island.
